

Name: _____

DIRECTIONS: Solve the 3-digit addition equations with regrouping by counting the base ten blocks. Record the sums.

Make sure you watch my regrouping video.

$463 + 455 =$

$294 + 507 =$

$372 + 528 =$

$761 + 405 =$

$213 + 637 =$

$644 + 150 =$

$347 + 329 =$

$508 + 196 =$

Name: _____

DIRECTIONS: Solve the 3-digit addition equations (without regrouping) by counting the base ten blocks. Record the sums.

$$225 + 643 =$$

$$317 + 541 =$$

$$551 + 431 =$$

$$263 + 124 =$$

$$733 + 125 =$$

$$666 + 112 =$$

$$387 + 412 =$$

$$517 + 151 =$$

Name: _____

Date: _____

Solve the 3-digit addition equations without regrouping by counting the base ten blocks. Record the sums.

$$623 + 145 =$$

$$237 + 351 =$$

$$514 + 403 =$$

$$172 + 106 =$$

2. Solve the 3-digit addition equations without regrouping using base ten blocks. Record the sums. Draw out your base ten blocks.

$$213 + 436 = 649$$

Example:

$$567 + 212 =$$

$$705 + 134 =$$

Name: _____

Date: _____

3. ~~Build~~ ^{Draw} the numbers with place value blocks. Add them together and record the sums.
